

## Remember...

Remember when you once looked to the stars and said, "When I grow up, I want to be an astronaut?"

Here is an opportunity to honor those who were, and support those who one day may be.

*Cosmic Rendezvous - An Evening Among the Stars* Gala is a very special benefit that honors the Apollo 1, Challenger, and Columbia crews—heroic men and women who lost their lives in exploration of the new frontier.

This national gala for Challenger Center for Space Science Education will raise funds so that we may continue to create programs that benefit the 400,000 students who visit our international network of Challenger Learning Centers each year.

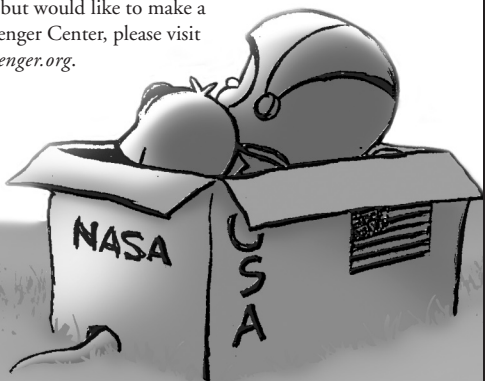

We invite you to join the Challenger space shuttle families and a distinguished group of astronauts for this truly special evening among the stars.
